In the hospitality business, guests and customers take it for granted that your facilities will be clean, safe and inviting — without any inconvenience to them.

Enhance your facility's image and minimise disruption with a range of durable, reliable floor cleaning machines to fill every need — from daily cleaning in guest rooms to deep cleaning lobby carpets, ensure your busy kitchen is cleaned to perfection, and keep outdoor areas looking their best.

Choose from a line-up of Tennant machines especially suited to your work: ergonomic,

lightweight upright and tub vacuums; carpet extractors for interim or deep cleaning; scrubber dryers for your large and small floor areas, and sweepers and pressure washers for outdoor cleaning.

Contact your [National Account Manager Stephen Downey](#) for more product information, pricing, or to arrange a [FREE on-site machine demonstration](#).

THE TENNANT TRUSTED JOURNEY

1

FREE, NO-OBLIGATION SITE SURVEYS & MACHINE DEMONSTRATIONS

Our experienced team will work with you to address your specific needs, select a number of solution options, and provide your team a full, on-site machine demonstration.

2

CLEANING MACHINES IN EVERY CATEGORY

This product guide showcases a number of products from our range ideal for the hospitality industry but the full range of Tennant, IPC and other well-known brands is available to you.

3

FREE, NO-OBLIGATION SITE SURVEYS & MACHINE DEMONSTRATIONS

Our experienced team will work with you to address your specific needs, select a number of solution options, and provide your team a full, on-site machine demonstration.

4

ABOVE AND BEYOND WITH TRAINING AND SUPPORT

Alongside the option of training for your on-site teams, Tennant has one of the UK's leading directly-employed service teams and an online training support system "Instant Assist".

5

ENHANCED SAFETY WITH BATTERY-POWERED CLEANING MACHINES

The majority of our cleaning machines are battery-powered, offering improved safety and efficiency, and eliminating the risk of tripping over power cords, reducing workplace accidents.

6

AFTERSALES SUPPORT AT ITS BEST

Your experience with Tennant doesn't end once the sale is complete. We want to maintain strong, lengthy relationships with customers through your dedicated account manager.

VACUUMS

LP 12 ECO B

A dry use professional vacuum cleaner made from up to 65% recycled plastic. Extremely compact, easy to use and ergonomic thanks to the practical handle with combined cable reel and silenced wheels. 12 litre. 900w.

Product Code: 017898

GP 1/35 WET & DRY

A powerful wet and dry vacuum made from up to 65% recycled plastic. The new generation 1200W motor guarantees high performance and the castor wheels allow easy manoeuvrability. 35 litre. 1200w.

Product Code: 017881

GP 2/62 WET & DRY

A wet and dry vacuum with an integrated device to stop liquids and foam and there is no loss of performance thanks to its independent motors. Made from up to 65% recycled plastic. It is easy to maintain, the gasket is easy to clean and is wear resistant. 62 litre. 2400w.

Product Code: 017886

GC 2/90 WET & DRY

A compact and powerful professional wet and dry vacuum specifically designed for the cleaning of large industrial areas with a drain hose enables a rapid emptying of the barrel and the wide wheels guarantee maximum manoeuvrability. 90 Litre. 2400w

Product Code: 017888

Product Code: 017354

CARPET EXTRACTORS

CCA50

A heavy duty carpet cleaner with brush agitation, designed to clean large areas of carpet to a professional standard. Water flow can be regulated to suit cleaning requirements such as low moisture cleaning or restorative deep cleans.

100 litre. 500/720mm cleaning path.

PRODUCT CODE: 017352

CCA70

A heavy duty carpet cleaner with brush agitation and motorised traction, designed to clean large areas of carpet. The differential of the traction motor allows the machine to turn with minimum effort.

140 litre. 500mm cleaning path.

PRODUCT CODE: 017347

TENNANT E5

A compact low-profile carpet extractor that is easy to manoeuvre around obstacles and under furniture for a thorough deep clean.

PRODUCT CODE: 9004198

STEAM CLEANERS

SG10

- Compact and lightweight
- 45 bar pressure
- 150°C steam temperature

PRODUCT CODE: 017798

QV6 110V

- Compact and lightweight
- 45 bar pressure
- 150°C steam temperature

PRODUCT CODE: 017581

QV7

- Vacuumated steam cleaner
- 45 bar pressure
- 150°C steam temperature

PRODUCT CODE: 017619

Deep cleaning professionally requires the right solution and our range of steam cleaners are products suitable for varied surfaces. Our more compact models have a smaller design making them very manoeuvrable, especially for areas that might be difficult to reach.

Within our range you will find steamers perfect for cleaning hard floors, workshops, vehicles or grease.

STEAM CLEANERS

SG48

A professional steam cleaner, able to remove the toughest dirt without leaving traces.

Reaching up to 180°C and with a pressure of 8 bar, a deep and safe cleaning is guaranteed for all surfaces. The SG-48's trolley and boiler are made of stainless steel, ensuring a long life, and allows you to combine steam and detergent cleaning, meaning more power, more versatility and more durability.

PRODUCT CODE: 017844

STEAM GUM REMOVER

The Steam Gum Remover is one of the world's first cordless steam gum removing machines available with Cell or Lithium-Ion batteries.

Cordless, quiet and simple to use the Steam Gum Remover operates with a simple start/stop system. Suited for both indoor and outdoor use, the machine features robust castor wheels to ensure a multi-terrain use.

**PRODUCT CODE:
017879 (CELL) / 017950 (LI-ION)**

HIGH PRESSURE WASHERS

IPC is a recognised global leader in the design, manufacture and supply of professional pressure washers, designed to remove stubborn dirt and grit from your hospitality outdoor areas, leaving a lasting positive impression on your customers and guests experience of your venue.

PW-H21 PLUS

A compact, heavy-duty hot water pressure washer with professional tools and accessories.

Up to 160 Bar water pressure.
Up to 660 L/hr pump water vol.

CONTACT US FOR DETAILS

A professional cold water high-pressure cleaner that perfectly combines power and ergonomics.

110 - 190 bar | 500-900 L/hr flow rate.

PRODUCT CODE: 017911

THE DECARBONIZER

SAVE TIME AND MONEY IN YOUR KITCHEN

The Decarbonizer is an easy-to-use stainless steel soak tank system designed for commercial use in busy, professional kitchens, to clean and remove grease and burnt-on carbon from a range of cooking and kitchen equipment.

Using The Decarbonizer to clean your kitchen equipment means your staff can focus on more important tasks such as delivering great customer service.

ECONOMIC

Spend less on water bills, less on staff overtime, and less on expensive cleaning chemicals.

IMPROVED STAFF MORALE

Staff can spend more time cooking and serving and less time cleaning.

EFFECTIVE

Improved system to reduce Fats, Oils and Grease entering your drains.

ECO-FRIENDLY

No chemical usage, reduced pH level, less water and new low 65°C temperature.
